## Vocal Performance Camp

Here we have an exciting opportunity to introduce students to choral styles and vocal techniques that rarely arise in standardized high school classrooms. For instance, a cappella is a fun, challenging way to sing chorally and to train the ear. Additionally, the approaches of Patsy Rodenburg and Moshe Feldenkrais, usually introduced in universities, are excellent tools and exercises for singers and speakers of all ages.

Mornings are set up as a choral masterclass of Contemporary Song Styles, taught by Austin Kiley, vocal music teacher at Vestal High School and music director of Vestal Voices. Afternoons, our focus shifts to the Voice of Musical Theatre or *"How to Act the Song,"* and will be taught by Cider Mill Playhouse artistic associate Joshua Sedelmeyer. On Friday, all students will be part of a showcase performance, including selections from both morning and afternoon classes.

## Summer Acting Classics

This ***new workshop***, taught by artistic associate Joshua Sedelmeyer, will focus on "Classic" theatre skills such as swordplay and verse, as well as the challenges provided by performing in outdoor settings like Shakespeare in the Park and Renaissance Festivals. Acting techniques and approaches will be covered as part of the process.

At the end of the week, students will be able to "showcase" some of their combat skills, and they will each take away with them a classic monologue or poem that they can continue to explore and use for auditions or recitations.
